

Product Name SODIUM HYDROXIDE 32 %

Product nr: 21961, 5550, 5552, 5575, 5600, 5677, 23738, 26088

DESCRIPTION

Sodium Hydroxide 32 % is a clear and colourless viscous solution in water. This product is diluted from 50% Sodium Hydroxide solution.

APPLICATION

This is a technical grade product for industrial use.

TYPICAL SPECIFICATION

Parameter	Unit	Values
NaOH	%	31 – 33
Density at 20°C	g/cm ³	1.339 - 1.359

Other typical properties

	Typical values
Sodium Carbonate	< 0.2 wt.%
Sodium Sulfate	< 100 mg/kg
Sodium Chloride	< 0.01 wt.%
Iron	< 5 mg/kg

This Table shows typical properties only, no analysis made. These values are typical values for 50% Sodium Hydroxide before dilution to 32%.
